PROFESSIONAL EXPERIENCE

BLIP *(Brazil's largest AI company backed by SoftBank and Warburg Pincus)* **Sao Paulo, Brazil**
Team Lead, Revenue Strategy & Operations **2024 – 2026**
- Led a 7-person global RevOps team, raising forecast accuracy from 80% to 92% through end-to-end strategic revenue planning and commercial performance analysis, enabling actionable, data-driven executive decision-making
- Reduced churn 42% by spearheading cross-functional analysis with Product and Customer Success to identify churn drivers and unmet customer needs, shaping roadmap priorities across 5 product launches and feature releases
- Increased conversion from 12% to 35% in one year by combining market analysis and customer segmentation to redesign GTM strategy, prioritizing high-value accounts by funnel performance, retention and ARR potential
- Saved $1M annually by consolidating customer-success tools in the Gainsight relaunch across Brazil, US, India and Spain, increasing adoption by 266% in 4 months through redesigned portfolio workflows and standardized processes
- Addressed 80%+ of critical adoption gaps in 4 countries after taking over an in-flight global rollout, using targeted expert interviews to reprioritize planning and execution and align senior stakeholders, regional teams and users

MBRF GLOBAL FOODS (*Global protein leader and one of the largest food companies, ~$15B EV)* **Sao Paulo, Brazil**
Senior Analyst, Sales Strategy & Planning **2022 – 2024**
- Selected as Chief of Staff to the Sales VP (CEO direct report); led the weekly Commercial Performance Forum with 10 senior leaders and owned the analyses that flagged risks and turned them into action plans across sales operations
- Drove 32% annual Frozen Foods revenue growth by using an analytical model to replace a standard product mix with larger bundles matched to each customer and optimizing retail planograms to expand in-store distribution
- Reduced waiting-related logistics costs by 35% by aligning Commercial and Logistics on 1 scheduling and shipment-tracking process, with real-time ETA visibility and proactive rerouting to keep deliveries within scheduled windows
- Restructured commercial processes, raising sales team adherence 15% and improving data accuracy in proposals

IFOOD *(LATAM's leading technology ecosystem, processing ~220M monthly orders; ~$6.2B valuation)* **Sao Paulo, Brazil**
Analyst, Sales Strategy & Planning **2021 – 2022**
- Scaled iFood Card revenue by 300% YoY by developing the venture thesis for the first flexible corporate meal benefits solution and building its operational model and scalable strategic B2B distribution channels from scratch
- Owned iFood Card's GTM and the shift to in-app sales, eliminating the 25% reseller fee and raising gross margin
- Boosted sales productivity by 34% and enabled data-driven cross-sell by integrating CRM and redesigning workflows
